EFUS meets Germany, Germany meets EFUS

EFUS General Assembly will be hosted by the German Congress on Crime Prevention

BERLIN.PARIS.The European Forum for Urban Security (EFUS) is happy to announce its 2010 General Assembly in Berlin, as part of the German Crime Prevention Congress. This year, the Assembly will include the creation of a German Forum for Urban Security (DEFUS); the seventh national forum to spring from the European Forum.

DEFUS' creation will allow an extension of the network of European collectives engaged in the prevention of crime.

The General assembly will include a conference - organised in cooperation with the international section of the GCOCP - which will be the International Forum of the 15th German Congress. A series of round-table discussions will bring together local elected representatives of European cities and international experts to discuss the question "How cities reconcile security and fundamental rights" .

The full programme is available [here](#) . More information also: www.praeventionstag.de.
